

*“Latest Trends in Major Domestic Appliances efficiency  
in Europe, Russia, and Ukraine”*

*Focus on Energy Consumption*

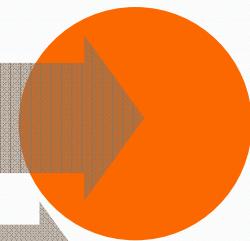

- GfK. Growth from Knowledge

# GfK Methodology and Mission

2

GfK brings market knowledge and expertise to all market players

Our information is the tool used by the industry to take strategic and tactic decisions on the market

GfK R&T is Data provider and CE, IT, MDA, and SDA markets expert

GfK R&T is auditing continuously the sell out of shops on item level in all western and eastern European countries

# Agenda

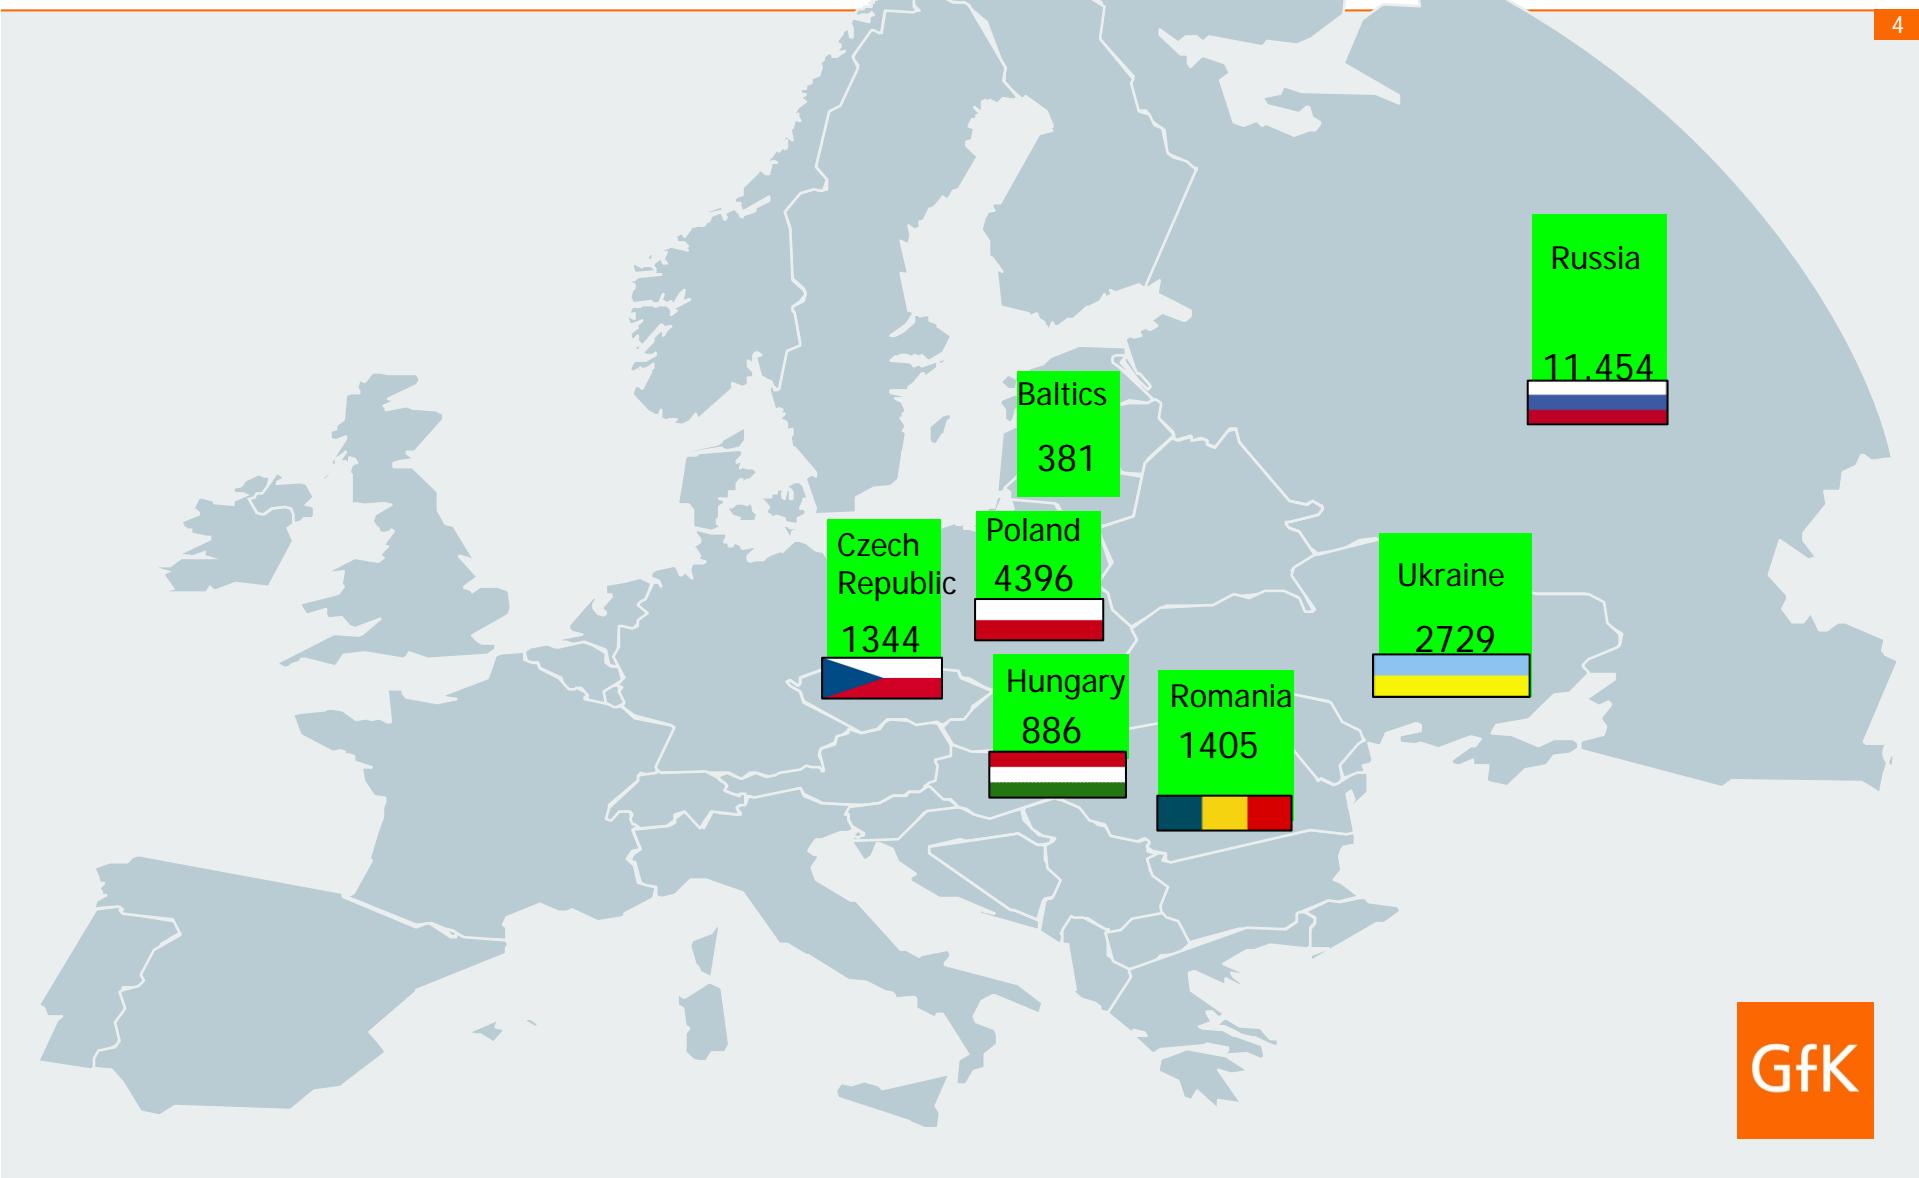

3

- 1    Total Market of MDA Appliances
- 2    Washing Machines / Refrigerators: substitution rhythm
  - Evolution of Segments
  - Energy Consumption
  - Price

# The main trends on MDA markets focusing on energy efficiency

## Ukraine/Russia vs Western and Eastern Europe

- Ukrainian and Russian markets of major domestic appliance are recovering.

30

- These markets are one of the biggest in Eastern Europe.

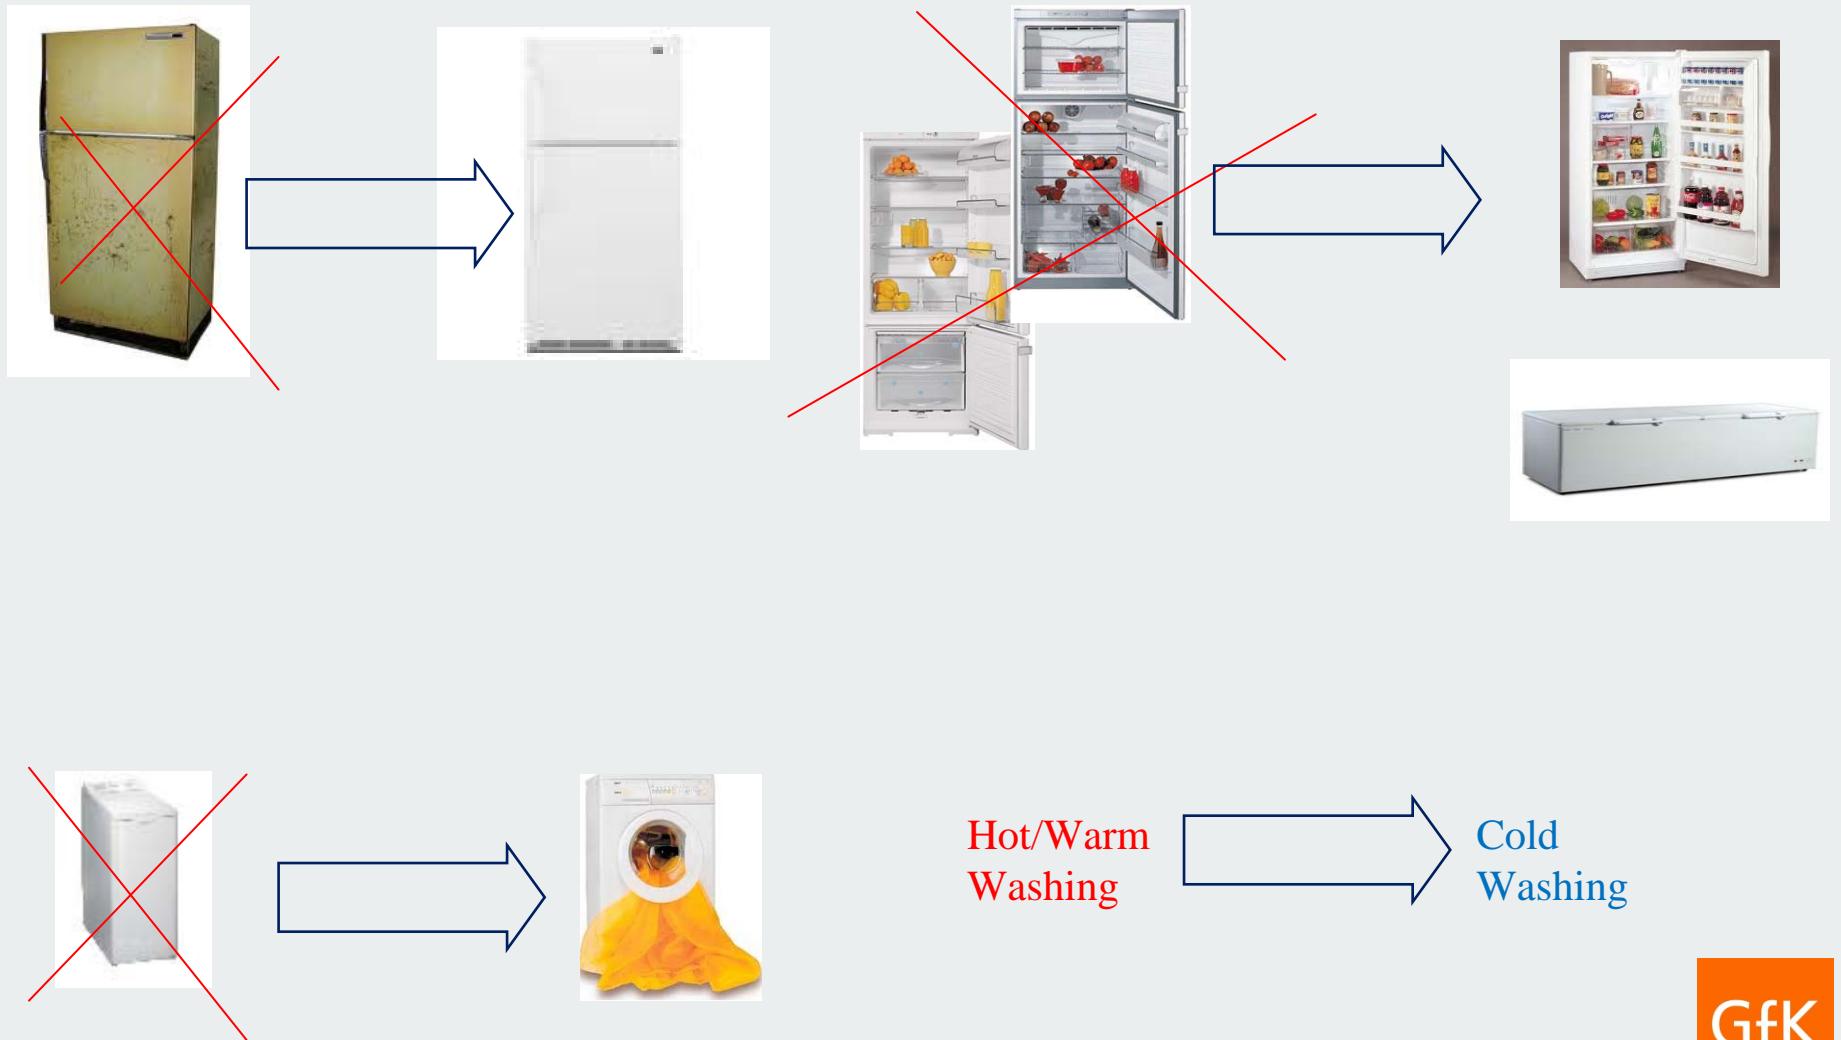

- Trend on increase of energy efficiency of major domestic appliance is remarkable
- 

- Refrigerators and Washing machines are one of the most energy consumable appliances at home. Decrease in energy looses can save money to consumers
- 

Producer's helpful price policy regarding energy efficiency can be additional stimulus in appliance substitution on more "friendly" one.

Information support can help consumers to choose more efficient home appliance

The more efficient appliance is, the more money you can save

# THANK YOU
